Mr. NOLAN STUART was on a visit

some a few days since. He has

now returned to his position as sec-

ondary teacher in the Ripley Male In-

stitute. We are pleased to hear

that he is performing the arduous

duties of his place with great satis-

faction. His many friends here

will always be pleased to hear of

his success.—Jackson Clarion.

PETSON'S MAGAZINE for Novem-

ber is already on sale, a splen-

did number, with a perfect galaxy

of steel engravings, colored fashion

plates, colored patterns for the

work-table, tales, poetry, etc., etc.

We do not see how any lady can

get along without this charming

monthly. With this number ap-

pears the Prospectus for 1884. It

promises better things than ever;

and "Peterson" always keeps his

promises. The will be nearly

200 printed pages, not less than 14

steel engravings, 12 double-size

colored steel fashion plates; from

300 to 900 wood-cuts; six copyright

novels, one hundred smaller sto-

ries, etc., etc. In short, the maga-

zine will continue to be, as heretofore,

the cheapest and best for ladies.

The terms are only Two Dol-

lars a year. To club, it is cheaper

still, viz: four copies for six dollars

and a half, with an extra copy of the

magazine, as a premium, to the per-

son getting up the club. Or five

copies for eight dollars, with both

an extra copy of the magazine for

getting up the club, and also a su-

perb illustrated gift-book, "The

Golden Gilt," or a large-size steel

engraving, for framing, "Tired Out."

No other magazine gives such pre-

miums. For larger clubs, the price

is still lower, while even more pre-

miums are given. Subscribe to no

magazine until you have seen a

copy of "Peterson." Specimens are

sent gratis, if written for, to per-

sons wishing to get up clubs.

Democracy.

It is the great glory of the Dem-

ocratic party that it upholds the

constitution, the institutions and

the traditions of the fathers. If it

has fought bravely for its prin-

ciples, it was because it believed the

liberties and rights of the people

were involved. The writings of

Jefferson and Madison, will live

when the little ranters of our time

will be buried in the waves of for-

gotten time. It is idle to say that

five millions of people will always

remain passive and inactive, while

political tricksters are bartering

away their liberties. The laboring

millions will bear long suffering,

but at the proper time the monop-

lists, money combinations and hun-

dry office seekers will pray the

mountains to hide them from an

indignant and outraged people. It

seems to us that they ought to see

the signs on the political horizon

and hear even now the muttering

of the coming storm. The people

knew the necessity for a cheap

and honest government and they will

have it at any cost. MARK THAT.—

WEEKLY

THE RIPLEY ADVERTISER.

RIPLEY, MISS., SATURDAY, OCTOBER 13, 1883.

Gen. A. M. West.

We gladly reproduce the following from the Tallahatchie Sentinel, showing the political position of Gen. West. We believe the Gen. to be one of the ablest men and purest patriots in the State and that whatever course he may adopt he looks alone to the glory and welfare of his country. We have taken some pains to study his history and we find his course fearless and manly, perfectly indifferent at all times to results so far as he may be personally concerned.

We had the pleasure on Sunday last on our return from a visit to the North, to meet on the train at Holly Springs the distinguished citizen whose name heads this column.

We have known Gen. West since our early youth, and have always known him as a man of the highest social and moral worth, possessing all the virtues and attributes that an noble man.

His reputation as a gentleman of great ability and as an eloquent and cogent debater, has become national. Gen. West claims to be a Greenbacker, though in this State he has no organized following; we knew he is honest in his convictions, as he is in all his political views and opinions.

We were much pleased to hear the Gen. say he was no Independent, and had no sympathy with the movement, but, on the other hand, expressed his contempt for it.—Tallahatchie Sentinel

Rev. Dr. A. G. Haygood, Oxford, Ga., General Agent of the "John F. Slater Fund," is invited to deliver an Opening Address.

It is useless, we presume to go into details as regards the aims and objects of this Association. To those who are not familiar with the organization it may be stated in general terms that its purpose is to advance the cause of education in our State. All teachers, as well as others, interested in this great work, are invited to attend and become members of the Association. An effort will be made in due time, to secure reduced rates on the different railroads leading to Jackson. It is believed also that hotels and boarding houses can be induced to reduce their terms to those in attendance.

Southern Cultivator for October.

We are in receipt of the October number of this sterling Agricultural journal, and we feel that we can say, without being charged with flattery to the publishers, that it is the best journal of our knowledge, for the Southern farmer. Its teachings and lessons are adapted not to the farmer of one State, but to all the Southern States. It is in the forty-fourth year of its existence, and increasing age but adds to its value and usefulness.

In its pages are treated all matters pertaining to the success, comfort and happiness of the farmer. The publishers are doing what nearly all the proprietors of Southern publications have failed to do, namely: employing the best writers in the South to contribute to its columns. And they are thus making the most entertaining Agricultural journal ever furnished the Southern people. The October number has the usual able contributions from Dr. Jones—his "Thoughts for the Month"—and the entertaining "Inquiry Department;" "Ditching and Drainage," "Dickson's admirable papers on his System of Farming," Bill Arp's Common Sense Letters," written especially for the Cultivator, and many other articles of great interest.

Perhaps the most valuable article of this number is an exhaustive discussion of Truck Farming, by Dr. A. Oehler, of Savannah, giving the reasons of some failures during this year, and pointing out the road to success.

The Cultivator is published by Jas. P. Harrison, & Co., Atlanta, Ga. Price \$150 per annum.

God Hears.

God hears every true prayer of faith, and treats such prayer as his infinite wisdom and love decree; but God works no miracles in our times. The recovery of a sin-sick soul to spiritual life and health is really no miracle; it is according to God's normal method of saving all sinners who employ his appointed methods, and who rely on his almighty grace. Saul of Tarsus was converted by a clearly miraculous manifestation of Jesus Christ to his bodily senses. But we ordinary Christians were converted in God's ordinary manner. When we sing the grateful words, "Love I much, I'm much forgiven, I'm a miracle of grace," we only use a strong figure to set forth the wonderful love of God toward us. But the regeneration of our souls—while it is by direct agency of the Holy Spirit—it is also wrought according to God's established and normal methods.

He promises to save every sinner who exercises true repentance of sin, and true reliance on his crucified son for salvation. —Rev. T. L. Cuyler.
